The Skin Ethos

Brand Colors

Color are the personality of a Brand and represent
the character and personality of The Skin Ethos and its audiences.

As a brand, you want to cultivate a strong emotional connection with your customers. The problem is you can't tell your company's entire life story in a logo or storefront, but branding colors provide a shortcut straight to your clientele's hearts.

Dr.Garima Balpande

Consitant Dermatologist & Cosmetologist

MD dermatologist,Verenology & Leprosy (pune)
